Are the minutes of the previous meeting agreed as a correct record?
List amendments here: Nothing needs redress at this time.

Review actions agreed at previous meeting and record how far individual responsibilities have been fulfilled.
version for Android is developing and stuck in input
Fix scene transition is done
Leaderboard is not working
Duck animation is fixed and perform well.

Where individual responsibilities have not yet been fulfilled within the agreed timescale, list the reasons given:
There different methods which can implement leaderboard function, some of which need add-on. It is better to find a methods easily to implement local leaderboard.
There are still some error when translate between scene.

New matters discussed:

The game is finished. It is necessary to collect feedback from its players.

Android version have some problems in players input. It is possible to find a method to replace input function of Android package.

Building leaderboard is necessary.

List all actions requiring attention

Use json for leader board.

New Android controls.

Scene transition bug needs fixed.

Chairperson of next meeting: Vandana

Secretary for next meeting: Su
